Easier locking

New tool simplifies locking of Coninvers M23 circular connectors

The tool is especially adjusted to the Coninvers M23 circular connectors and simplifies to securely screw and unscrew the knurled nut even in cramped installation conditions.

The hand tool consists of two components: a spanner wrench and a torque screwdriver with fixed torque of 2.5 Nm.

Both components can be obtained under the following article descriptions:

Spanner wrench for Coninvers M23 circular connectors with knurled nut:

SF-Z0027

Torque screwdriver for spanner wrench:

SF-Z0028
