

RDE Connectors & Cables Environmental Policy Statement

Protecting our shared environment is of fundamental importance to RDE Connectors & Cables, Inc. and its employees. To support this common goal, we will:

- Meet or exceed all local, state and federal environmental regulations that relate to this company and its activities.
- Avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials must be used, disposed of and stored.
- Strive to identify and purchase environmentally preferable supplies and services for all our daily operational needs.
- Actively promote recycling and reduce waste through re-use and recycling and by purchasing recycled, recyclable or refurbished products and materials where these alternatives are available, and suitable.
- Work to minimize waste and continually improve the environmental performance of our products and processes by reviewing our procedures and ensuring efficiency.
- Purchase and use RoHS compliant components and materials in our products.
- Endeavor to minimize pollution, conserve energy and water and support renewable energy resources.

These efforts will extend to contractor and supplier relationships. We will encourage contractors and suppliers serving or otherwise acting on behalf of the organization to meet our standards of environmental performance.

Employee understanding and involvement are essential to the implementation of this environmental policy, therefore we will:

- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Train, educate and inform our employees about environmental issues that may affect their work.
